

Welcome to the Powerchange Coaching System

We provide our clients and their Powerchange Coaches with a unique personal development experience using our client led, client centred Coaching System.

For the Client, the Powerchange Coaching System includes:

Safety - the assurance that your coach will look after you. Your Powerchange Coach has been thoroughly trained, knows what he or she is doing, is trustworthy and has a clear support system in place. Our coaches are accountable to and accredited by the Powerchange Academy. See the Powerchange.com website for more information.

Flexibility - the opportunity to 'start anywhere, go everywhere' for those clients who are not clear on what they want yet.

The Powerchange Ring - a tried-and-tested system of coaching, modeled on a clock face, that produces satisfying results time and time again.

An enjoyable coaching experience - we like to bring out the smile in our clients.

Choice - Powerchange has a unique variety of Specialist Coaches - health and fitness, executive and performance coaching, family, life-coaching, education, relationships, and many more. We'll happily introduce you to one of the team who specialises in your needs and who will enable you to seamlessly move forward on a new course.

Unlimited opportunities to take your personal development further if you want to - or not. We regularly have clients taking a break from coaching and coming back to us months and sometimes years later when they are ready, like you, to take the next step forward.

For the Coach, the Powerchange Coaching System includes:

People - highly trained coaches around you who are choosing to 'live the brand' of a learning lifestyle in general and Powerchange in particular.

Tools - effective psychological processes that do the job of helping clients get the results they want.

Skills - the ability of our coaches to work effectively, professionally and with a growing mastery of this amazing world.

Materials - proven high quality branded coaching materials that are unique to Powerchange Coaches and WORK.

Branding - 'Powerchange®' is becoming a recognised and respected brand in the field of human development solutions.

Professional support - including contracts, insurance and practical day-to-day coaching support.

CPD - Continuous Professional Development is essential in this fast-moving industry. Our CPD includes benchmarking, coach-the-coach, and ongoing training programmes as well.

The Powerchange Academy - Accredited tutors, your personalised learning pathway, and living learning for 21st Century, to give your present and future width, depth and strength.

Powerchange. Live the life you're proud to own.
